

Session Program

21-27 Sept 2026

NOBUGS 2026

Beamline Control Systems

EuXFEL Lighthouse

Tuesday 22 September

16:00

Beamline Control Systems

Session | Location: EuXFEL Lighthouse Auditorium

16:00-16:15

Bluesky at SIRIUS: Scaling, Standardization and End-to-End User Experience Across Beamlines

Speaker

Igor Torquato

16:15-16:30

Operando catalysis experiment automation at DESY P65

Speaker

Devin Burke

16:30-16:45

Continuous Multi-Technique Scans in Sardana: From Roadmap to Production

Speaker

Oriol Vallcorba Valls

16:45-17:00

ELETTRA 2.0 Beamline Controls: from the photon transport to the data collection and processing pipelines

Speaker

Roberto Borghes

17:00
